GALACTIC WAR

BY

JASON WELCH

In the 23 century planet CANDEREL is the hub of the GALACTIC FEDERATION .Ambassadors meet at the Royal parliament , a new purpose built oval structure situated between WINSOR and the new CANDEREL university,

The building is in the center of a jungle , a circular oval with a blue tinted lattice canopy and red circular walls ..

GRAHAM STRINGER and TULA REECE ,broadcasting throughout a GALACTIC FEDERATION start the show as ambassadors arrive from from their residences on rapid transit tube, resin molded carriages convertible for when it rains, controlled from geostationary orbit on PROMETHIUS space station.

HIGH COUNCIL and SENNET meet once a month, to allow news agencies and spectators in.

The opening ceremony is announced on tannoy speakers throughout the building and broadcast to the GALACTIC FEDERATION and DRACONIAN EMPIRE .

GRAHAM STRINGER GOSH, some of these ambassadors look like my wife before she plasters her foundation in the bathroom mirror .

TULA REECE CHAMPION .Citizens can interact on touch screen bulletin boards to participate in debates .

They are escorted in by KALDOR police in their blood red uniform, with silver moon boots white shoulder pads and flowing white cape , who show them to there commentary box, as king LOFTY the WISE and his party step up onto a raised stage below a sandy yellow

velvet curtain .
GRAHAM STRINGER And now the ambassador from MAGRATHEA steps in front of the high council of the GALACTIC FEDERATION, dominated by an oblong glass table with a FLEUR DE LIS persian rug underneath , in front of a sandy yellow velvet curtain .
SONDAR presents this years journal of MAGRATHIA to the high council ,and then walks to the far side and sits on a chrome and wicker chair .
TULA REECE Viewers might remember that MAGRATHEA is the birthplace of human civilization .
Played out on news feeds on 8ft monitors in front of the sandy yellow velvet curtain is a documentary following the SEARCHERS voyage to MAGRATHEA .
Left of KING LOFTY sits SCIENCE TECHNICIANS on chrome and wicker chairs below an oblong glass table .
SCIENCE TECH POTASSIUM Some of this journal will have to be censored .
KING LOFTY Just give us a brief overview .
GRAHAM STRINGER Ambassador BROCK you say you come from a perfect society . SCIENCE TECH CASTAN LAGO CAN I HAVE A DRY SHERRY .
A V-O-C robot in their familiar light green fibre costume, brings a crystal decanter on a silver tray up to the ambassadors and pours for LAGO .
CASTAN LAGO With respect, Minister.There are more pressing matters. The protein incubators are increasing their yield, and I've also had requests for robot harvesters that will pick and pack fruit and vegetables untouched by human hands .
SCIENCE TECH POTASSIUM The same technology will make a car that drives itself.
KING LOFTY with his wife SELINA and MOVER POUL gets up and walks across a lemon tiled carpet and down in front to stand before all assembly .
KING LOFTY Well if there's no more business it leaves me to start the lottery .
TULA REECE Some of the lower grade workers can go to ARCADIA and TREADMILL pleasure planets .
While tannoy speaker announces the end of the show ,CARNEL steps onto the stage and joins COMMANDER MAXELL and his adjudicators , who escort the color coded robed ambassadors from their blue crushed velvet padded seats through the dress circle and

out of the parliament citadel onto a crazy paved surround with the twin moons reflecting moonlight from CONDOM, star of CANDEREL .
They are escorted bu MAXELL and his ADJUDICATORS in the blood red uniform , with silver moon boots and flowing white cape over a central plaza onto a rapid transit conveyor, a perspex resin plastic carriage,to take them back to MANTA and PROMETHIUS residency on the shores of CANDEREL.
ADJUDICATOR GINGER steps into an open carriage and pilots them through market gardens, past ornamental fountains from a river inlet, landscaped with large sandstone boulders and tropical pants to PROMETHIUS, with CYPRUS CORNERS ,on the right .
COMMANDER MAXELL messages ADJUDICATOR GINGER on his wrist communicator.
MAXELL I'm going to CATSPAW. Eastbourne wants a fight with the DRACONIAN EMPIRE , and I've asked for more pursuit ships from the space patrol.
GINGER And what of the SPACE PATROL ?
MAXELL They are patrolling the neutral Zone, and will be ordered to warp to MAGRATHIA ,with ambassadors to help protect the birthplace of human civilization from our enemy .I've a retirement cheque for COMMANDER CORBETT .
GINGER Say hello to LOGAN. ROSS, MIKE RIVERS, and JASMINE .
MAXELL Lofty says I can requisition federation pursuit ships from the SPACE PATROL to defend convoys traveling to distant planets , throughout the galactic federation .
MAXELL gets into a travel tube moves through a perspex ground tube along the ground past a tropical garden with sandstone boulders and mountain streams towards CATSPAW .
Elsewhere a travel tube comes out and stops on the central plaza of PROMETHIUS residency on the shores of CANDEREL and ambassadors clamber out of carriages and over to the glass fronted reception across a lemon tiled carpet of the skyscraper .
Science technician VEER enters his penthouse suit and activates a roaring fire on a central pillar while walking across a persian rug into the bathroom .And then over to the basin and turns the taps on relieving himself in the urinal only to be stung by an arc of electricity pining him to the floor .
A large green squid like creature rolls over a tube of **GERMALIN ANTICEPTIC** tm out of a bath onto the prone figure and starts sucking his life energy ,altering its body cells to take on the human

form .
Moments later the sliding door of the bathroom opens and a V-O-C robot enters, placing headphones on this on the temples of the prone body activating it , placing another tube of **GERMALIN ANTICEPTIC** tm in the bath ..
The mind-brain interface gives the figure the hive mind of **SPACE RAIDERS** tm and orders for data theft .
The changeling of SCIENCE TECH VIR comes out of the bathroom wearing a maroon bath robe and over to an oblong glass table, sitting on a sandy yellow corduroy sofa and retrieves blueprints from an android viewing slab, then transmits the data to **SPACE RAIDERS** tm high command .
He then follows his V-O-C robot out of the apartment, along the charcoal grey tiled carpet, to the elevator and down to the ground floor, then through a service tunnel. past air conditioning and utility pipes to the back exit.
They push a trolley carrying the body of SCIENCE TECH VEER in the woods behind PROMETHIUS residency ,on the shores of CANDEREL to dispose of the body.
Meanwhile Adjudicator TOWNSEND escorts ambassadors over to MANTA residency, a high rise building dominated by Roman columns and stone steps leading through sliding doors of reception and across a maroon marble floor past display cases containing sports trophies to the security office . He uses an entry coder to get into the security office we're adjudicators in full costume are at their booths monitoring commercial traffic.
TOWNSEND I'm checking in for my next assignment .
STEVENS If you can escort mine workers from CATSAW to the woods around PROMETHIUS I can give you the prefix code for the AMBASADORS reception on KALDOR .
TOWNSEND Fine, I'm just going to take my break and then I'll meet the mine workers near the open city .
He leaves the security office and walks over a maroon marble floor with janitors in navy blue trousers and sweatshirt buffing and polishing ,and enters a metallic tube.
The travel tube deposits him in his residency and he walks into the bathroom and turns on a tap. He reaches for some medicated soap and is stung by a powerful arc of electricity, pinning him to the bathroom ceramic tiled floor . A green giant squid creature slides across a tube of **GERMALIN ANTICEPTIC** tm and crawls over him sucking his life energy.

H 2 O = too much meat and not enough vegetables .

The creature merges with TOWNSEND the cells reforming into an exact replica of him down to the brown chestnut hair and sideburns. Minutes later a V-O-C robot ambles across the ceramic tiles in its light green fiber costume and attaches an electronic device to his temples with a hive mind of the SPACE RAIDERS.A hybrid human looking like ADJUDICATOR TOWNSEND walks out in a purple bath robe across a persian rug past a roaring fire into his lounge to a blue fabric sofa .
He operates the communication console asking monitor for all the prefix codes to all dimension gates throughout the entire galactic federation and transmits to SPACE RAIDER central command.
He then opens the door to allow sv7 in pointing to an area on the map for burial to help v32 to push the dead body along maintenance tunnels wrapped in a blue tarpaulin .
He then dresses in his blood red KALDOR POLICE uniform, blood red with silver moon boots and a flowing floor length white cape , and uses a remote control to turn off the life support system and open fire in the central brick pillar , before walking to a metal cylinder and alighting a travel tube .
The travel tube takes him to the town of CATSPAW and his meeting with the COMMANDER MAXELL .

The everflowing stream of GALACTIC FEDERATION news presents the STATE FUNERAL of SCIENCE OFFICER VIR.
GRAHAM STRINGER LIVE..... from PROMETHIUS residency on the shores of CANDEREL .
TULA REECE A nd the high council have just arrived at Prometheus residency for the state funeral of VIR, who was tragically cut down in the prime of his life, attacked in his own home .
GRAHAM STRINGER The high council leave open top ped single seat plastic resin carriage s and over a central plaza in front of PROMETH IUS to the harbourside .
TULA REECE The service shall be conducted by KING LOFTY president of the galactic federation.
A team of adjudicators resplendent in their blood red uniform meet the ambassadors and take them through the woods at the back of Prometheus residency to the harbourside we're they gather by a black torpedo-shaped casket.
KING LOFTY We're gathered here today to celebrate the life of SCIENCE OFFICER VIR tragically slain by the space raiders who infiltrated our society .
SCIENCE TECHNICIAN MATTHEWS His last project beIng human incubators that bring a human to term untouched by human hands and delivered by servo-mechanisms and robots .
GRAHAM STRINGER Viewers of the Discovery channel might remember that the incubators were banned by treaty with the DRACONIAN EMPIRE during the first expansion.
TULA REECE Recently an expedition to MAGRATHIA fable birthplace of civilization , discovered the're still in use.
KING LOFTY During the reign of my grandmother

PRESIDENT VANESSA BELLAMY the science and research vessel SURCHER made a pilgrimage to MAGRATHIA and Dr GOODFELLOW discovered they were using the incubators.
The casket is transported on a conveyor into the side of a hovercraft it's base a large pink inflatable .
SCIENCE TECHNICIAN MATTHEWS The calm Waters will allow the hovercraft to make a speedy journey to a fissure in the sea bed where the torpedo will be ejected , joining others .
GRAHAM STRINGER When ready, that seabed fissure shall be sealed over to flatten the sea bed , ready for an under sea resin pipeline and bullet Train connecting the central continent of CANDEREL to UZUMPTA ISLAND south of the equator.
LAGO I hear Space patrol have recently made a topological survey from high orbit to find the right place for all the caskets .
SCIENCE TECHNICIAN MATTHEWS The new hydro-electric plant measures the tidal forces and automatically adjusts them using turbines.
KING LOFTY Thus making the ocean calm for me to build a fleet of hovercraft for atlantic crossings .
LAGO Calm as the proverbial mill pond and a source of power for the new city further along the shoreline from PROMETHIUS ,The HIGH COUNCIL have named KALDOR 3 .
KING LOFTY We hereby commit his body to a trench in the middle of the ocean .
The High Council watch as the hovercraft speeds away from the harbour side over the calm waters until it glides over the Crest of a wave and is lost from sight..
KING LOFTY Godspeed ,I've got a meeting in the town of CATSPAW with RUBY and SAFFIRE .
LAGO And I think EMERALD will be there .
RELL Not while the news agencies are.Recording LAGO.
LOFTY, LAGO ,RELL, and MAXELL follow KALDOR ADJUDICATORS through the woods and over a central plaza back to the open topped bullet train and clamber in .
ADJUDICATOR STEVENS takes the cockpit gliding the train away from Prometheus residency through an oasis in the blind heart desert past sandstone boulders and palm trees towards the town of CATSPAW of west of the palace of CANDEREL ,I home of the royal family.

From the high tree line above they see the perspex glass elevator reaching up to the stratosphere we're PROMETHIUS BASE hangs in a fixed orbit sending materials and personnel to CANDEREL .
Lofty uses the intercom attached to his carriage to call MAXELL .
LOFTY Please wrap these meetings up and get me back to the palace where VULUPTUA is waiting for me .
MAXELL Yes your Highness I've just got to see the MAGRATHIAN ambassador and then I'll meet you at the EAGLE & CHILD in the central zone of CATSPAW .
The train leaves the forest past sandstone boulders at the base of a waterfall into a river leading down from the mountains ,through a tropical rainforest and then stops in the center of CATSPAW .
ADJUDICATOR STEVENS unlocks ,and the high council step out onto the dirt road , following MAXELL, who escorts LOFTY and technician MATTHEWS, with RELL and LAGO trailing behind past space cowboys and citizens enjoying the day , to the eagle and child tavern.
They step up from the dirt road onto wooden terrace and walk along the bannisters entering by the louvre doors of the saloon.
MAXELL walks along the dirt road and is joined by sv7 it's pneumatic legs making a squelching slapping sound on the tarmac .
MAXELL Have you assembled the INTREPID crew in the blue Room ?
SV7 Yes commander Corbett and his away team are waiting for you .
MAXELL walks passed the jailhouse to one story prefabricated building with a thatched roof and steps into the blue Room
COMMANDER CORBETT is waiting in his Lincoln green costume with a silver sash running along his chest plate with his officers , KEMP, FISHER, LOGAN and ROSS .
MAXELL walks across the royal blue tiled carpet over to his glass desk and sits to sit in a chrome and wicker chair.
MAXELL Sorry for keeping you waiting ,I have an important mission for you.
CORPORAL ROSS GOODIE?
MAXELL You to transport an ambassador to MAGRATHIA and secure the area .
COMMANDER CORBETT Isn't macrosia deep within DRACONIAN territory ?
MAXELL Correct,when the INTREPID warps out the dimension gate you'll be met by a DRACONIAN battlecruiser,and a captain SONDAR .

CORPORAL KEMP I hate draconians they're so they're so cold
CORPORAL FISHER Yeah I always feel like they're looking down their nose at us.
COMMANDER CORBET Quiet in the ranks or I'll send a space message to your mother.
CORPORAL LOGAN Tea time when we get aboard ?
COMMANDER CORBETT I've a consignment of rich tea biscuits for the galley, JASMINE is incharge . We'll have a brew up before entering the dimension gate.
CORPORAL FISHER Better have it without sugar or the dimension gate will reject us.
CORBETT uses an INTERCOM on his glass desk to call the INTREPID .
COMMANDER CORBETT Prepare to get underway as soon as I assumes command .
The crew stand and follow sv7 out of the blue Room stepping onto the dirt road towards the bullet train.
MAXELL steps down onto the dirt road then takes the right along and steps up onto the wooden terrace and along the bannister's then through the louvre doors of the EAGLE & CHILD pub. He uses an INTERCOM to find the alcove seat of KING LOFTY who sitting next to RUBY and SAFFIREe.
He then walks across a FLUR DE LIS shag pile carpet through pine round tables with red check cloths to brass railings and frosted glass surrounding a maroon velvet settee .
SAFFIRE, sitting next to LOFTY , wearing a one-piece green mini dress and RUBY is wearing a one-piece blood red mini dress with a plunging neckline.
Left of the town of CATSPAW a train speeds through the forest and into wild scrubland.
CORBETT There's our conveyor to the stars .
From a distance CORBETT and his officers sees the towering edifice of the perspex elevator that will take them into the stratosphere and connect with PROMETHIUS space station 3 miles above .

The train stops in front of the clear perspex doors and the crew clamber out and walk over to stand in front ,as a V-O-C uses a waist high console .The clear plastic doors open and they strap into acceleration crouches, The carriage starts to ascend and they see the land across the horizon as the sun sets through the clear plastic shell while they're lifted towards the stratosphere and into space three miles above.

From the safety of the perspex elevator they ascend through a cloud bank and then the view becomes dark with twinking stars before it lifts into the belly of PROMETHEUS station .

They walk the into a brightly lit reception room with royal blue tiled carpets and soft resin paneling where their greeted by captain Mike RIVERS and corporal LOGAN.

RIVERS Ready to set sale captain ?

CORPORAL LOGAN we're fully loaded , recharged with encase there's any trouble .

COMMANDER CORBETT The question becomes if there is war are we going to be ready ?

I've had out with a high council who seem to think disarming the fleet is the only option with the League of non-aligned worlds and draconian empire.

They walk along the charcoal grey tiled carpet to the outer hatch and then then through into the main gantry past starship troopers .

COMMANDER CORBETT LOGAN get ready to set sail on impulse power .

He walks over to a wall mounted intercom.

COMMANDER CORBETT All crew this is the captain everyone assembled the observation gallery .

ROSS ,KEMP and FISHER follow CORBETT along maroon tiled carpet and into a lemon tiled spacious observation room.

They crowd around the concave viewing gallery as INTREPID disengages docking clamps from PROMETHIUS space station and sets coast to a dimension gate behind a purple moon orbiting CANDEREL .

COMMANDER CORBETT I've had many talks with the high

council who seem to think grounding SPACE PATROL and conceding to draconian empire is the best policy.
KEMP Yes but if the space raiders attack it's actually who gonna defend them ?
COMMANDER CORBETT Oh believe me I've told them and they've sent us on a mission to take ambassador JACAR back to MAGRATHIA .
FISHER A low risk mission that shouldn't be given to SPACE PATROL'S flagship.
COMMANDER CORBETT Last mission before I retire to ARCADIA ,with the wife and kidneys.
From the flight deck CORPORAL LOGAN uses a remote control to activate the mile wide DIMENSION GATE creating a rippling Mercury with light from 1000 suns rippling off its mirrored service.

As the INTEPID reaches full impulse power ,officers on the observation gallery see stars whizzing past.
COMMANDER CORBETT We have an enemy that lurks in the Shadows ready to strike we don't know how powerful they are.
KEMP They've got cybernetics bionics and the ability to shape themselves into any animal .
FISHER The only thing they don't have is an advanced robotics program like our voc
COMMANDER CORBETT Latest intelligence says that they'll have access to all our dimension gates stolen from the high council in from under their nose
The INTREPID plunges into the dimension gate for a journey to

MAGRATHIA.
KING LOFTY Monitor book Us a package to Arcadia, my usual chalet , you girls can leave the typing pool and come with me .
LAGO Didn't you say EDWINA is expecting you in the palace .
LOFTY Well LAGO once you've overseas technician Matthews in his new laboratory you can come with us to Arcadia maybe a double up with ruby here.
TECHNICIAN MATTHEWS We manage to gene-splice draconian and human embrio's on a production line .
LOGO we're going to call them cCROYDONS.
MATTHEWS Can I help you set up the incubators and the servo units to bring the embryo to term untouched.
LAGO Then we'll come back in nine months and roll them along onto dried fruit on exercise mats.
MATTHEWS And some of our nurse can collect them and take them to a nursery .
LAGO I thought we could put the croydon's in the the hotter equatorial regions
lofty I've just seen a good friend of mine over there
Lofty gets up and walked through the pine tables with red check tablecloths to another maroon velvet alcove seat we're professor Higgins and colonel Pickering ordering a meal .
LOFTY What's on the menu?
HIGGINS PICKERING decides what to eat depending on where his silver top cane lands in the hat stand .
PICKERING So so you're having the fish.
LOFTY I'm trying to promote a more fish diet from suspects sustainable fish stocks.
HIGGINS Yes we're having the fish with sautee potatoes and broccoli.
LOFTY I think I'll have the same .
HIGGINS Oh while you're here lofty I want your permission for a field trip
LOFTY If it's for your class at the university .
hiHIGGINS Some of my students, want to go see the Great wall of China.
PICKERING That will be 10th century on the earth calendar .
LOFTY Are you sure they won't be too many samurai warlords after your blood .
HIGGINS So if we took some of your adjudicators with us to protect us .

LOFTY Yes and then you'll get captured and Chinese communism and started early using a plasma rifles. Though I value your knowledge and I'll let you take a small party through the guardians of forever time gates If you arrange it with COMMANDER MAXELL .
Lofty goes back across the the dance floor threading between pine tables with red check table cloths to the brass railings and frosted glass maroon velvet alcove .
LOFTY We're havening fish potatoes and broccoli.
WAR OF THE SPACE RAIDERS
From a tannoy speaker above the fire exit the sympathized voice of monitor --MAINFRAME-OF GALACTIC FEDERATION..
We interrupt climbing for dollars for a special news flash
Cyborgs have arrived on GALDA PRIME, Through the dimension gate. driving all-terrain-vehicles, then broken through a perimeter wall into our BLIND-HEART-DESSERT .
GRAHAM STRINGER They are belived to be on a direct course, over the crest of sand dune waves, that stretch across the horizon for 40 miles, to our DENTRASSI-FARM--PROCESSING PLANT .
TULA REECE In the BLIND-HEART-DESSERT.
STRINGER Perimeter defenses were not capable of stopping them once they reached.The ROMULUS facility on the far side of the Blind Heart Desert.
TULA REECE Adjudicators using plasma rifles defended the ROMULUS facility but they were outgunned and out manned by the attacking cyborgs.
STRINGER SPACE RAIDER cyborgs from TELOS-FARSIDE-RESURCH-BASE ,On a barren rock in the outer reaches of the Galaxy trained in armed conflicts.
TULA REECE Whose bionic powers gave them extra strength to force their way past Intercom security locks to the production area holding workers at gunpoint.
GRAHAM STRINGER- SECURITY-CHIEF-BARKLAY-SILVER, and PRODUCTION MANAGER CARNEL-TATLOW could not put his V-O-C ROBOTS on Defence alert.
SAFFIRE[RED MINI DRESS,] They've captured our vital food processing centre ,holding officers armed with plasma riffles.
These bionic cyborgs have sent this message.
A viewing monitor lowers from an artexed ceiling next to a glitter ball above the dance floor of the **EAGLE & CHILD PUB** and a **CYBERMAN** appears on the screen .

All dentrassI will be freed.And taken to our asteroid on telos-these cybermen are rescuing all rutons and dentrasi changlings at your romulus processing plant and returning to TELOS .
they Shall mind meld with ruton gestalt-THAT WE use throughout the galaxy-before.Being eviscerated to Space Raider standards.
meat shall be Transported back to galda prime and all other dimension gates shall be given back to you .
you can then distribute dentrasi meat through-out YOUR Galactic Federation.
Saffire There great for microwave meals, a three legged animal with a round head from the mountains of galda prime .
LOFTY I knew this would happen, we better skip the second course, I'll go back to the palace .Ruby grab your coat .
The whole party leaves their alcove seats and across the Persian rug and through louvre doors then step onto a dirt road .
MAXELL uses his wrist communicator to call al ground-car.ADJUDICATOR RAVEN will take you back to the palace.
LOFTY I'll be on blue channel to 0800, talking to the high council .MAXELL I want an action plan by then.
MAXELL joins RELL and they clamber into a ground car then speed out of CATSPAW through security gates, a magic eye scanning a bar-code on the side of the car and making minor course corrections till they get to there WAR ROOMS.
The car speeds through poplar trees ,and sandstone boulders , making minor course corrections with magic eyes scanning bar codes on the sides ,and then turn into the loose gravel car park below a green lattice Dome .
They clamber out the car and walk over using an INTERCOM to gain access. They walk down a grey laminated floor pass utility pipes and then enter the war room with the judicators are studying readouts .
Adjudicator India hands MAXELL a cup of tea .
INDIA If you want sugar the cube is on a piece of string by the counter.
SLOAN Dunk the cube in twice and hang it up for the next ADJUDICATOR .
MAXELL and RELL walk over to a table top and illuminate a galactic map .As They watch areas of space turn black.
STENTON RELL We still have communications with TREADMILL and all the M-Class planets of the galactic federation.
MAXELL And the hotline to the draconian empire is going to be red hot.

MAXELL walks over to a communications booth Manned by no adjudicator SLOAN, and sits down next to him on a chrome and wicker chair.
SLOAN Admiral brockwell and space patrol.
From a tannoy speakers mounted above the fire exit.
BROCKWELL The fleet is being launched to escort supply ships.
MAXELL Luckily m-class planets are well defended.
RELL SPACE RAIDERS are only attacking protein plants in the GAMMA QUADRANT .
LOFTY'S car drives across the planes past sandstone boulders below a river stream on a large plateau below a mountain rainge.
He parks in a loose gravel car park below steps leading up to a wide entrance of roman columns that stand below a green dome .
He clambers out with RUBY and SAPHIRE and up into the reception through an archway and walks over the black and white tied entrance past stone cladding with tapestries from variety artists in touring theatres embroidered in silk thread depicting an assortment of senes throughout time and space.
They then trot up to the first floor and around oak bannisters and sit themselves on a mauve corduroy sofa..
RUBY is still wearing a blue mini dress and SAPHIRE has changed into a red mini dress with a plunging neck line , just has emerald comes out the bathroom.
EMERALD Oh lofty there's Pop tarts are giving me wind.
LOFTY gets up and strides over the Persian FLEAR DE LIS rug and places his arm on her green mini dress with a plunging neckline.
LOFTY Let officer RAVEN take you back to PROMETHIUS residency on the shores of CANDEREL.Make yourself a big bowl of scrambled eggs, put your feet up and call me in the morning.
He then traverses the FLUR-DE-LIS Persian rug and sits on mauve corduroy sofa next to ruby and sapphire.
LOFTY Monitor put me on mauve channel, I must speak to CARNELL of KALDOR-CITY .
A viewing monitor is lowered from an artexed ceiling in front of a sandy yellow stage curtain.
CARNELL Yes, Lofty, what can I do for you?
LOFTY The news agencies are saying that sector by sector the space raiders are attacking the new protein incubator plants.
CARNELL Recently set up on moons and uninhabited areas to feed the M-Class planets of the galactic federation and the

draconian empire .
LOFTY CARNEL it seems we're gonna have to put operation CAPTAIN BIRDS EYE
CARNEL You mean with mushy peas and Cadbury smash .
LOFTY That's the one CARNEL and maybe birds custard and suit pudding .
SAPHIRE Sylvester Sniggley over on FRONTIUS encourages citizens to make fish tanks of sustainable whitefish and mackerel, even sardines and pilchards and send them to a central cannery.
RUBY Only excess , that's not consumed within the residency,the rest can be pumped from the tank in the back garden into a drum on the back of an articulated lorry.
LOFTY That has a regular run throughout the city, top of the class young lady.
CARNEL Well that's just great LOFTY operation CAPTAIN BIRDS EYE, issuing pools in the back gardens and residences.
SAPHIRE[GREEN MINI DRESS]What do you mean my my uncle Silas over in KALDOR CITY can become a fisherman?
LOFTY Yes RUBY[RED MINI DRESS] and your aunty MURIAL as well.
CARNEL I I'm going over to blue channel to speak to the high council .By the way I've had a request from MONTOYA over at SANCTUARY on the farside of KALDOR .
SAPHIRE[GREEN MINI DRESS] SANCTUARY in the BLIND-HEART-DESSERT across the rolling sand dunes of KALDOR .
LOFTY Where they harvest LUCANOL and PALADIUM for advanced surgical instruments on STORM MINES .RUN IT BY ME .
CARNEL He's got a couple of men there, one who claims to be from ancient earth.
LOFTY You mean that blue green planet in the Western spiral arm the milky way galaxy?
MONITOR put me on blue channel to the HIGH COUNCIL and call the RUTAN ambassador .
LOFTY Monitor put me on blue channel and get me the war room. MAXELL we're going to have to speed up operation CAPTAIN BIRDS EYE and I'd like you to oversee the transition with ADMIRAL BROCKWELL .
From Tannoy speakers above the far exit, Lofty hears the ingratiating whine of MAXELL..
MAXELL And what about all these new colonies which are being invaded by the Space Raiders?

LOFTY It seems I've managed to negotiate a treaty with the space raiders.
MAXELL Well done. Is it gonna be a church do with you and Ruby in front of the entire federation?
RUBY[RED MINI DRESS , WITH PLUNGING KNECK LINE]Compulsory viewing for all citizens of the Galactic Federation..
LOFTY Yes SEYMORE, the RUTON ambassador is now saying that they only want DENTRASI eviscerated to their standards .They said they'll bring DENTRASI back to us either vaccume packed or ready processed.
STENTAN RELL We won't be getting them fresh or frozen anymore?
LOFTY Well I'm sure that the product will be edible..
SAPHIRE As long as they put a use-by date on.
LOFTY Will be healthy nutritious as if you'd slaughtered the animal in your back garden .MAXELL if you can go up to PROMETHIUS STATION and launch the fleet. Take back as many processing plants and M-CLASS planets and reinstall dimension gates.
RUBY[RED MINI DRESS , WITH PLUNGING KNECK LINE]Let's just hope this is the last time that a lower life threatens the galactic federation .
The synthesize ambidextrous voice of monitor can be heard from TANNOY speaker about the fire exit .
The draconian emperor is requesting an audience.
RUBY[RED MINI DRESS , WITH PLUNGING KNECK LINE] Monitor put him on the monitor.
A monitor descent from the voltage ceiling in front of a forest green velvet curtain and the screen saver of the DRACONIAN EMPIRE is replaced by EMPEROR SONDAR,
LOFTY GREETINGS YOUR HIGHNESS.
SONDAR Give the space raiders what they want and warm them if they enter DRACONIAN space they'll be blasted out to the sector.
LOFTY Your supply of protein will be maintained excellency from GLOBAL CHEMICALS with the normal cartoon of my grandmother PRESIDENT VANESSA BELLAMY and her consort from earth PETER ELGIN on tins, and all packaging, including plastic bottles ..
SONDAR But the space raiders have captured some of your protein incubator processing plants on moons and GALDA PRIME .
LOFTY The galactic Federation will recover and get

through this time with operations captain Birds eye and sustainable fish stocks for air citizens.
Emperor I'm going to send the team to cultivate the Western spiral arm of the milky way galaxy starting with SOL 3.
SAPHIRE[GREEN MINI DRESS] THEY CALL IT EARTH .
From his throne room SONDAR consults draconians to the left of his high back chair .
SONDAR IF THAT FAILS ?
LOFTY If that fails will leave that sector of space alone but rest assured excellency your supply of protein with the logo of GLABAL CHEMICALS and the face of my grandmother VANESSA BELLAMY and PETER ELGIN will be maintained with artificial flavourings and preservatives .
SONDAR Make sure it is LOFTY and what are their new crossbreeding chimeras.
LOFTY Oh the CROYDONS, half HUMAN half DRACONIAN with a variety of light coloured scales, should be coming out of the loomS soon.
RUBY You might want to send some draconian nurses over.
LOFTY RUBY has called them CROYDONS, and SAPPHIRE wants to call some of them WEST NORWOODS .
From his throne room SONDAR consults draconians to the left of his high back chair.
SONDARE EXCELENT and I hope to send my family over the teach them the ways of the draconian empire.
Emperor must go we'll chat tomorrow .
The DRACONIAN throne room is replaced by a screensaver of the empire and the monitor rises from the forest green velvet curtain back up to the high vaulted ceiling.
